COSMIC TABLE

INTRODUCTION

The Cosmic table was channeled by me on 09/09/19 at 22:22 pm.
I saw her floating in front of my third eye, and tried to jot down as much detail as possible.

It was designed by Ricardo and Carlos Leiton, as well as all other drawings. It can be used in many ways, here I will pass some of the ways I felt to use, but you will in time, find your own form.

HOW TO TUNE IN AND START WORK

My suggestion is to start by taking a breath, recognizing your Love for the Divine Father and Mother, then center your heart all the love that unites you: the son/daughter to the Divine Father and Mother, enter the Sacred space of Your heart, Breathe for some Instants the I AM Presence, and as soon as you feel full Light and Love, you will have to make the Intention to work and work with the Bureau for the Greater Good, respecting the universal laws and allowing only information to arriveoyou are based on Love, asking permission for Self Presence from each Participant and asking for help from the Egregoras of Light involved.

You can use the pendulum to receive the necessary confirmations.

WORKING WITH THE TABLE

You can work with the table in several ways, here I will present some that I use:

- Initiating through the Pendulum in the center, and sending the tools and flowers through the Pendulum;

- Transforming the table into a Grid of light with crystals and working the laying on of hands, mantras, prayers, Sacred chants, sending the tools and their energies through meditation;

- Through the music and light vortices with the pendulum, letting the pendulum move around the table until it stops moving;

- Combining with the portals of light and the other tables;

- The way you Intuite;

FINISHING THE WORK OF THE TABLE

The completion of the work is intuitive, when you feel and receive the message through your Internal Guide that is over, you can make a decree to finish the work, use the dowsing boards to know how long this work will be working, and if it would be interesting to suggest a new work.
